Severe Head Pains  
Caused by Catarrh  
Cured by Peruna

I Feel It  
a Duty to  
Mankind  
to Let All  
Know of  
My Cure.  
Peruna  
Did It.

Mr. W. H. Chaney, R. F. D. 2, Sutherland, Pittsylvania Co., Va., writes: "For the past twelve months I have been a sufferer from catarrh of the head. Since taking four bottles of your Peruna I feel like a different person altogether. The severe pains in my head have disappeared, and my entire system has been greatly strengthened. "This is my first testimonial to the curative qualities of any patent medicine. I feel it a duty to mankind to let them know of Peruna. In my estimation it is the greatest medicine on earth for catarrh." We have thousands of testimonials like Mr. Chaney's. Some of them were cured after years of suffering and disappointment in finding a remedy. Send for free copy of "Tide of Life." The Peruna Co., Columbus, Ohio. Those who object to liquid medicines can now procure Peruna Tablets.

STOP BUYING EXPENSIVE COUGH REMEDIES.

Make The Best At Home.

Money spent for the old style, ready-made, cough syrups in bottles holding only 2 to 24 ounces is very largely wasted, because most of them are composed principally of sugar and water. Yet you have to pay the same price as if it was all medicine. Stop wasting this money. You can make a better cough medicine at home at one-fifth the cost. Merely go to Henry L. Perry's Drug Store and ask for 2 ounces (50c worth) of Schiffman's Concentrated Expectant. Mix this with one pint of granulated sugar and one-half pint of boiling water, which makes a full pint (16 ounces). This new, simple, pleasant remedy is guaranteed to relieve the worst cough or cold. Also excellent for Bronchitis, Asthma, Croup, croup, hoarseness and whooping cough. One bottle will make enough home made cough medicine to probably last the whole family the entire winter. Children like it, it is so pleasant to take and it positively contains no chloroform, opium, morphine or other narcotics as do most cough mixtures. Keep it on hand in case of emergency and stop each cough before it gets a firm hold. The above druggist has been authorized to return the money in every single case where it does not give perfect satisfaction or is not found the best remedy ever used. Absolutely no risk in trying this remedy under this positive guarantee.—Adv.

Stock Owners Warned Against Imposters.

Reports are now beginning to come into the department from several of the States "quarantined for the foot-and-mouth disease that persons who have no connection whatsoever with the department are attempting to pass themselves off as Federal inspectors. There are several possible motives that might account for the existence of these imposters. In the outbreak of 1908 there were instances of men who obtained money from credulous victims who believed that in this way they would escape the inconveniences of quarantining their stock. This is of course a very simple form of extortion. Another motive may be the sale of some quack remedy for the disease.

Stock owners can protect themselves very easily against this fraud, for there is no specific remedy for the foot-and-mouth disease. Since the germ has never been isolated, it has never been possible to use a cure or preventive, and the public may be quite certain that anyone who says that he is an employee of the Department of Agriculture, and at the same time attempts to sell or even recommend anything of the sort, is simply an imposter. For this reason stock owners are warned not to allow strangers to visit their stock or attempt any demonstration of so-called cures by injections or otherwise.

There is, moreover, very great danger that such people might disseminate the disease. It is a well-known fact that the germs can be carried on clothing. In infected territory, therefore, it is quite possible that a man who has come in contact with stricken animals may bring the disease to a perfectly healthy herd. This also accounts for much of the spread of hoof-rot.

The department therefore recommends all farmers to keep their animals from contact with all save those who have definite business with them.—Federal Bulletin.

The Federal authorities say that milk from suspected or exposed cows should be boiled thirty minutes. Meat should be well cooked. There is little danger of people contracting the disease.
